Explicit Improvement plan for 2016

What
⇒ Communication
⇒ 4 Blocks Literacy
⇒ Positive School Behaviour

How
⇒ Differentiated Aligned Curriculum
⇒ Differentiated Pedagogy
⇒ Differentiated Performance Development

Why
Every student becomes an active citizen of the future.

This week marks the end of Term 2, and report time. On Friday your child will bring home his or her Semester 1, 2016 report. Over the last six months your children have participated in a range of lessons at their educational level, based on the Australian National Curriculum. Each learning area reported on will provide you with a comment describing what has been taught; what your child can do; and the next step in your child’s learning or what will assist them to improve their result.

While students in a class participate in the same lesson as their peers, the expectations for students are very individualised. This is one of the aspects that makes special schools different from mainstream counterparts.

Parents are encouraged to discuss their children’s educational progress with class teachers throughout the year. It is by developing a strong partnership that we are able to best support students in their learning. I wish all families a happy, healthy and safe school holiday, and look forward to seeing students excited to begin the new term on Monday 11th of July.
